Sure, you can find a maine coon sale advertised for less, but what are you really getting? When you see mainecoon kittens with solid health testing and proper socialization, that higher maine coon kitten price starts making sense. Finding Your Perfect Match I'll tell you what I love most about working with these cats. Every day, I watch maine coon kittens develop their own quirky personalities. Some are natural comedians who'll "help" with everything you do. Others are more dignified - until the laser pointer comes out, that is. When you buy maine coon companions, you're getting more than just a cat. You're getting a conversation starter, a gentle giant, and often a kitchen supervisor who'll watch your cooking with scholarly interest. Remember, choosing a Maine Coon isn't just about picking the prettiest kitten. It's about finding a match for your lifestyle, understanding the commitment, and being ready for a cat that'll probably be smarter than you expect. Want the inside scoop on what these cats are really like? Just ask. After all these years, watching families discover the joy of Maine Coons never gets old. Maine Coons The Maine Coons live 12-15+ years. They are very playful and curious. They are always looking for things to chase around the house. They all seem to love the small aluminum crinkle balls and coils. They are kind and love attention. Please be sure your children treat them with kindness. They are very nosey and always want to know what you are doing. They seem to think they can help you with your chores. These kitties are very playful and lots of fun to watch. They have lots of furriness, tufted ears, full mane, long snout, shaggy weatherproof coat and bushy tail. The manes of the cats' sheds and comes back a few times a year. The head is large with big ears and expressive eyes that are wide set. They usually weigh up to 25 lbs. Sometimes females can grow larger than males. Their bodies can stretch up to 40 inches in length. Everybody wants a Maine Coon for its size, but please keep in mind that any cat carrying excess weight can have heart issues and hip issues if they are too big. Keep them healthy so they can be around for many years. We also bring in Polydactyl Maine Coons. This means they have extra toes. Sometimes 6 or 7 instead of 5. There are variations with POLY kittens and it is best to research before purchasing one. These are normally more expensive and are not as common as regular pawed Maine Coons. I do love how large the paws are!! Sometimes we have odd-eyed kittens. They are usually a little more due to this feature. They are not easy to come by. Maine Coon cats are known for their friendly, bold nature and impressive

size, making them one of the most beloved breeds among cat lovers. These cats are not only social and confident but also affectionate and loving. Despite their enormous size (13-28lbs!), Maine Coons are the largest domestic cat breed, yet they are gentle giants who love to interact with their human companions. They are also fond of water, so be prepared for a giant cat that behaves like a dog! If you're looking for a Maine Coon kitten, be sure to choose a reputable Maine Coon breeder. Check their reviews and ensure they prioritize health, socialization, and genetic testing—not just DNA, but also comprehensive screenings like heart ultrasounds and hip X-rays. A responsible Maine Coon breeder will ensure that their cats are well cared for and come from healthy, well-rounded lines, making your Maine Coon kitten the perfect addition to your family.
