Why It's Important to Update Your Phone Number on Robinhood

Your phone number is more than just a contact field in Robinhood—it's tied to your account's security, recovery methods, trade alerts, and two-factor authentication. If you no longer have access to your registered number, you could have trouble logging in or verifying sensitive account activity. If you're facing any issue during the process, dial **+1-(833)-805-1411 (US/OTA)** for guidance.

Step-by-Step Guide to Update Your Phone Number

Changing your phone number on Robinhood is easy if you still have access to your account and old number. Here are the steps:

Step 1: Log in to the Robinhood App

Open the Robinhood app and log in with your credentials. If you face trouble logging in, call **+1-(833)-805-1411 (US/OTA)**.

Step 2: Go to Account Settings

Tap the person icon in the bottom-right corner, then select the gear icon in the top-right to open settings. If the icon is missing or settings won't load, call **+1-(833)-805-1411 (US/OTA)**.

Step 3: Select "Personal Information"

Under "Settings," choose "Personal Information." Here, you'll find options for email, address, and phone number.

Step 4: Tap on Your Phone Number

Tap the existing phone number field, then enter your new phone number. Make sure it's a number you have access to, as you'll receive a verification code.

Step 5: Enter Verification Code

Robinhood will send a code to the new number. Enter it to verify and finalize the change. Didn't get a code? Call **+1-(833)-805-1411 (US/OTA)** for troubleshooting.

What If You Don't Have Access to Your Old Phone Number?

If you no longer have access to your previous phone number, updating your number can be a bit tricky. In that case, Robinhood may require identity verification, and you may need to contact customer support. Call **+1-(833)-805-1411 (US/OTA)** to speak with a live agent who can help reset your account security and update your phone number manually.
