Dear admissions committee

I am a PhD in Persian language and literature, a university professor and a scholar. Research in the field of Persian literature is my specialty and my favorite work. I have several researches in the form of articles and book. I am doing research in manuscript proofreading and narratology. My goal is to introduce and spread Persian language and literature all over the world.

I am highly motivated to join your university and am looking forward to interview you.

Best regards

Anita Khaleghi
