📞 How Do I Speak Directly to Coinbase?{!!~@Spe@k tod@y}

To speak directly with Coinbase, you have two main options: **phone support (+1-516-(218)-1455)**and **live chat**. Coinbase offers **24/7 customer support** to help with urgent issues like locked accounts **(+1-516-(218)-1455)**, unauthorized access, or transaction problems.

✅ 1. **Call Coinbase Customer Support**

- **US & Canada (Toll-free):** 📞 **(+1-516-(218)-1455)**

- **United Kingdom (Toll-free):** 📞**(+1-516-(218)-1455)**

- Once connected, press **0** to speak to a live agent faster.

   Tip: Have your account email, phone number, and any support case number ready to verify your identity.

✅ 2. **Use Live Chat on the App or Website**

- Go to coinbase.com or open the Coinbase mobile app

- Sign in → Go to **Help Center:(+1-516-(218)-1455)**

- Click **"Get Support"** → Select **Live Chat**

- Start with a virtual assistant; it will escalate to a real agent if needed

   Live Chat is available 24/7 and is great for resolving issues when you can't make a call.

🧾 3. **Submit a Support Request (Non-Urgent)**

If your issue is not urgent, use the online form:

- Visit: https://help.coinbase.com

- Click **Contact Us:(+1-516-(218)-1455)**

- Choose your issue and fill in the details

- You'll receive a confirmation and case number for follow-up

---

⚠️ Stay Safe When Contacting Support

- **Only call official Coinbase numbers** listed on their website

- **Never share your password, 2FA code, or recovery phrase**

- **Coinbase will never ask for remote access to your device**
