More Information

Affiliate marketing is considered passive because in theory you can earn money just by adding a link to your site or social media account in reality you won t earn anything if you can t attract readers to your site to click on the link and buy something

A pseudo random number generator is an algorithm for generating a sequence of numbers whose properties approximate the properties of sequences of random numbers computer based random number generators are almost always pseudo random number generators yet the numbers generated by pseudo random number generators are not truly random likewise our generators above are also pseudo random number generators the random numbers generated are sufficient for most applications yet they should not be used for cryptographic purposes true random numbers are based on physical phenomena such as atmospheric noise thermal noise and other quantum phenomena methods that generate true random numbers also involve compensating for potential biases caused by the measurement process
