Common Coinbase Issues and How Support Helps

Below are some of the most frequent problems Coinbase users face — and how calling **+1-808-743-1322** can get them resolved.

1. Account Access & Recovery

Locked out due to forgotten password or lost two-factor authentication (2FA)? Coinbase support can verify your identity and help restore your account securely.

- Call +1-808-743-1322 for immediate recovery assistance
- Follow instructions for password reset or 2FA setup

2. Forgotten 12-Word Recovery Phrase

If you lose your wallet's 12-word phrase, recovering your crypto can be impossible. However, if your Coinbase Wallet is linked to your Coinbase account, call **+1-808-743-1322** to explore any available recovery options.

3. Transaction Issues

Delayed or failed transactions can cause frustration and confusion. Support can:

- Track your transaction status

- Assist with disputes or refunds
- Guide you through cancellation or retries
Call +1-808-743-1322 to speak with an agent for transaction troubleshooting.

4. Suspicious Activity & Security Concerns

If you notice unusual account activity, act fast:

- Change your password immediately
- Enable or reconfigure 2FA
- Contact Coinbase support at +1-808-743-1322 to report and secure your account

5. Account Verification & Limits

Having trouble with identity verification or account limits? Support agents at +1-808-743-1322 can clarify verification requirements and help you complete pending processes.

6. Coinbase Wallet Troubleshooting

If your Coinbase Wallet isn't syncing or showing the correct balance, or if you encounter app errors, call +1-808-743-1322 for expert help.
